Details for the validation procedures are listed on the following pages.

## **1. RC Number 1211**

Allow for AMS to collect Ethnic data.

### **Description of Change**

Add a new 507 field called Ethnic-Type with field number of 75 to the Contract and Purchase Order screens. A new entry for this field will be added to Table 49 - Contract Fields names. Also, 507 edits will be added to Table 50.

Valid 507 entries for Ethnic-Type are:

- A - Asian-Indian American
- B - Asian-Pacific American
- C - Black American
- D - Hispanic American
- E - Native American
- F - Other Certified
- N - No Representation
- BLANK

A list of 507 edits for “ETHNIC TYPE” is included below the test procedure.

### **Functional Impact**

There is no functional impact as a result of this CCR.

### **NOTICE:**

***Prior to executing the following test procedure, you must run the adhoc program CCR1211 to add records to Tables 49 and 50. Sample JCL for this program is provided in Appendix E. After successfully executing the adhoc program and testing the following procedure in your PRODUCTION environment, delete the adhoc program.***

### **Validation Procedures**

- Use the ‘TABLES’ option from the main menu to verify a new entry of ‘QGA75T’ was made to the (AA) MASTER LIST OF TABLES. Also verify that a new table entry of (75) ETHNIC TYPES has been added to the Menu of Tables.
- Use the ‘TABLES’ option from the main menu to verify a new key entry of ‘75’ with a result of ‘ETHNIC-GROUP’ and ‘02’ has been added to Table 49 for CONTRACT FIELD NAMES AND NUMBERS.
- Use the “ADD AN ORIGINAL CONTRACT AWARD” process to add a new contract. Verify that the new field “ETHNIC TYPE” exists on the second screen.
- Enter an invalid value for “ETHNIC TYPE”.

- Complete the contract and run it through the 507 edits.
- Verify that an error is generated for the invalid value of “ETHNIC TYPE”. Display the error explanation screen. Verify that a description for each ETHNIC TYPE is displayed.
- Use the “UPDATE AN ORIGINAL CONTRACT AWARD” process to enter a valid value for “ETHNIC TYPE” and run the contract through the 507 edits.
- Repeat the above step for all valid ethnic types. Verify that the above ethnic types pass the 507 edits.
- Use the “QUERY AN ORIGINAL CONTRACT AWARD” to verify that “ETHNIC-TYPE” is displayed on the second screen of the contract.
- Repeat the above steps for the Purchase Order processes.

The following listing was prepared to assist you in testing CCR1211. It contains all 507 edits that pertains to the ETHNIC TYPE field. These edits are formatted as they appear in Table 50:

## **2. RC Number 001212**

FACS needs the century reported for Award Date, Completion Date, and Closeout Date in order to be Year 2000 compliant.

### **Description of Change**

The FACS dataset that is sent to HQ on a monthly basis will be restructured to add the century to the Award Date, Completion Date or Required Delivery Date, and Closeout Date. This will not require the dataset length to be expanded.

The new FACS file layout is included below the test procedure.

### **Functional Impact**

There is no functional impact as a result of this RC.

#### ***NOTICE:***

***Prior to executing the following test procedure, you must run the conversion program CCR1212 in batch to convert the format for FACS history dataset to the new format. Sample JCL for this program is provided in Appendix E. After successfully executing the conversion program and testing the following procedure in production environment, delete the conversion program.***

### **Validation Procedures**

- Execute the FACS Recovery option in the **BATCH** environment to reset all flagged records from the last FACS run. The default dates on the screen may be used. Make a note of the Rec Reported Date as this will be used in subsequent steps. Verify the program executed successfully: To perform this task, select the following core menu options or run using your site unique JCL:
  - 7 - Reports
  - 3 - FACS Recovery
- Execute the FACS Lead Time option. Enter the Rec Reported Date used in the previous step. The default correction cutoff date may be used or use the correction cutoff date from the last FACS run. Verify the program executed successfully. Compare the report to the report from the last FACS run. The results should be the same. To perform this task, select the following core menu options or run using your site unique JCL:
  - 7 - Reports
  - 4 - FACS Contract Lead Time Report

- Execute the Monthly FACS Submission option for a FACS Trial Run. Enter the Rec Reported Date used in the previous step. The default correction cutoff date may be used or use the correction cutoff date from the last FACS run. **Ensure the Trial Run option is chosen.** Verify all programs executed successfully. Compare the reports to the reports from the last FACS run. (The last report can be from actual FACS run.) The results should be the same with the exception that the dates should now be reported using the century. To perform this task, select the following core menu options or run using your site unique JCL:

7 - Reports

2 - Monthly FACS Submission

- Execute the Monthly FACS Submission option for an actual FACS run. (The dataset will not be sent to HQ unless you send it.) Enter the Rec Reported Date used in the previous step. The default correction cutoff date may be used or use the correction cutoff date from the last FACS run. **Ensure the Produce FACS Dataset option is chosen.** Verify all programs executed successfully. Compare the reports to the reports from the last FACS run. The results should be the same with the exception that the dates should now be reported using the century. To perform this task, select the following core menu options or run using your site unique JCL:

### **3. RC Number 001213**

Allow remarks to be entered for contracts at all stages and not just when contracts are closed.

#### **Description of Change**

A new option has been added to the Contract Award menu that allows remarks to be entered for open contracts. Contract remarks for closed contracts can still be added under the Closeout menu.

#### **Functional Impact**

Contracts no longer have to be closed in order to enter remarks and then reopened. Remarks can be added or changed during the entire life cycle of a contract.

#### **Validation Procedures**

- Verify that the last option listed below appears on the Contract Award menu screen:  
    4 - Contracts  
        1 - Award  
            11 - Add/Update Contract Remarks
- Select the Add/Update Contract Remark option and enter an open contract number. Verify that the Contract Remarks Add/Update screen is displayed.
- Enter remarks for the contract. Verify that the message 'REMARK SUCCESSFULLY ADDED' is displayed.
- To query the added remarks, return to the Contract Award menu. Reenter the Add/Update Contract Remark option. Use the same contract number for which the remarks were added.

#### **4. RC Number 001214**

Change valid 507 edits for field 43 (Cost and Performance Reporting).

##### **Description of Change**

The current 507 edits for field 43 (COST-PERF-REPT/NF533) are no longer valid. Change 507 edits from 'N', '2', '3', '4', '5', or '6' to 'N', '2', or '3'. Also, provide an adhoc program to convert existing data as follows: '4' to '2', '5' to '3' and '6' to '3'.

A list of 507 edits for "COST-PERF-REPT/NF533" is included below the test procedure.

##### **Functional Impact**

There is no functional impact as a result of this CCR.

##### ***NOTICE:***

***Prior to executing the following test procedure, you must run the adhoc program CCR1214 to change existing 507 edits on Table 50 and program CCR1214B to convert the values in existing records in the contract and purchase order files. Sample JCL for these programs is provided in Appendix E. After successfully executing the adhoc programs and testing the following procedures in your PRODUCTION environment, delete the adhoc programs.***

##### **Validation Procedures**

- Verify that the following entries no longer exist in Table 30:
  - 4 NF 533M & 533P
  - 5 NF 533P & 533Q
  - 6 NF 533M, 533P & 533Q
- Using a PPC code that requires an entry in the COST-PERF-REPT/NF533 field (see the listing of 507 edits provided after the validation procedures for this CCR), verify that when a '4', '5', or '6' is entered for COST-PERF-REPT/NF533 that the Contract/Purchase Order does not validate. Change the value of COST-PERF-REPT/NF533 to 'N', '2', or '3'. Verify that the Contract/Purchase Order validates now. This should be checked on the following options:
  - 3 - Purchase Orders
    - 1 - Award
      - 7 - Update 507 Data (Page 2)
    - 2 - Administration
      - 1 - Add a PO Modification
      - 2 - Update a PO Modification

#### 4 - Contracts

##### 1 - Award

- 1 - Add an Original Contract Award (Page 2)
- 2 - Update an Original Contract Award (Page 2)

##### 2 - Administration

- 1 - Add a Contract Modification
- 2 - Update a Contract Modification

The following listing was prepared to assist you in testing CCR1214. It contains all 507 edits that pertains to the COST-PERF-REPT/NF533 field. These edits are formatted as they appear in Table 50:

## **5. RC Number 1215**

Field 44 - Property and Space Hardware Reporting is no longer valid.

### **Description of Change**

NASA no longer requires data on just Space Hardware. All property now is considered 'Agency Peculiar Property'. Re-title 'Property and Space Hardware Reporting' in all AMS screens to 'Property Financial Reporting', and change the 507 edits from 'N, 2, or 3' to 'Y or N'. Also, provide an adhoc program to convert the values of the 'Property Financial Reporting' on the CONTRACT-FILE and PURCHASE-ORDER-FILE from '2' to 'Y' and from '3' to 'Y'.

A list of 507 edits for "Property Financial Reporting" is included below the test procedure.

### **Functional Impact**

There is no functional impact as a result of this CCR.

#### **NOTICE:**

***Prior to executing the following test procedure, you must run the adhoc program CCR1215 to add records to Tables 49 and 50 and program CCR1215B to convert the values in existing contract and purchase order records. Sample JCL for these programs is provided in Appendix E. After successfully executing the adhoc programs and testing the following procedures in your PRODUCTION environment, delete the adhoc programs.***

## **7. RC Number 001218**

Add a new value ("4") for CICA Applicability.

### **Description of Change**

There is a requirement to collect data on Commercial Item Acquisitions Under the Test Program. Add a new element under Field 24 (CICA Applicability) -- "4" to stand for "Commercial Item Acquisitions Under Test Program".

### **Functional Impact**

There is no functional impact as a result of this CCR.

#### ***NOTICE:***

***Prior to executing the following test procedure, you must run adhoc program CCR1218 to create the 507 edit entries for CICA = 4 in Table 50. Sample JCL for this program is provided in Appendix E. Before running the adhoc for CCR1218, you MUST run the adhoc for CCR1211. After successfully executing the adhoc program and testing the following procedure in your PRODUCTION environment, delete the adhoc program.***

### **Validation Procedures**

- Verify that Table 50 contains entries for PPC (field number 14) and CICA = 4. Compare your table entries with the list of 507 edits for CICA applicability of 4 included after this test procedure to ensure that adhoc CCR1218 ran successfully.
- Verify that valid values for CICA applicability in AMS are: 1, 2, 3, and 4. Remember that CICA 4 only applies to PPC codes that ends with "C".
- When CICA applicability of 4 is used in AMS , verify the following:
  - NUM OFFERORS SOLICITED must be blank
  - NUM OFFERS RECV must be completed
  - SOLICITATION PROCEDURES must be blank
  - AUTHORITY OTHER THAN OPEN must be blank.
  - COMMERCIAL ITEM ACQUISITION must be 'Y'.

The following listing was prepared to assist you in testing CCR1218. It contains all 507 edits that pertains to CICA APPLICABILITY = 4. These edits are formatted as they appear in Table 50:
